The University Hospital of Tübingen is a leading center of German university medicine, treating approximately 75,000 inpatients and approximately 380,000 outpatients annually. The newly established Department of Population-Based Medicine at the Institute of Health Sciences, University of Tübingen, invites applications for a position as a Postdoctoral Researcher in Population-Based Medicine (f/m/d).

The position (100 %) is initially limited to three years, with the possibility of extension.

We are seeking an outstanding researcher engaged in public health-related research with a specialization in data science, epidemiology, medicine, psychology, or computer science to join our team in working on a diverse array of research projects.

This postdoctoral work opportunity will be in the area of preventing and managing chronic diseases, with a focus on behavioural factors, chronic conditions, mental health, and stress-related conditions.

The requirements of the position include the completion of a doctorate (PhD, MD, DSc.), excellent knowledge of English, international experience, and experience in working with large and complex data sets. Additional experience in digital (mental) health would be advantageous.

The successful candidate must have strong statistical modelling skills. In addition, candidates should have excellent scientific writing and strong oral communication skills, as well as the ability to work effectively, collaboratively, and collegially with colleagues from different disciplines. The candidate is expected to supervise students and research staff and to contribute to teaching in the new international M.Sc. program Population-Based Medicine & Health Care Leadership.

Applicants should send a
- CV (including publication record, conference contributions, teaching experience, etc.)
- Research statement of maximally 3 pages
- Names and email addresses of three professional references (current or previous research supervisors)
- Transcript of records
- TOEFL scores or other evidence of English and/or German proficiency

We offer remuneration in accordance with TV-L (collective wage agreement for the Public Service of the German Federal States) in addition to all the customary benefits granted to employees working in Public Services. Severely handicapped persons with equal qualifications are given preferential consideration. The University of Tübingen is anxious to increase its quota of female scientific staff, and therefore emphatically requests women to apply for this position. The Administration of the University Hospital is responsible for all employment matters. Personnel appointments will be made pursuant to the fundamental stipulations of the legal statutes for universities in Germany. Interview expenses are not covered.

Please send your application exclusively by e-mail (PDF attachment), quoting the reference number 10999, to bewerbung.bsl@med.uni-tuebingen.de, where also informal inquiries can be addressed.
